direct governing authority of the University is the Vietnam General Confederation of Labour.

- Summary of the establishment history and development of the University:

TDTU originated as Ton Duc Thang Private Technology University, established under Decision No. **787/TTg** dated September 24, 1997 of the Prime Minister, founded by the Ho Chi Minh City Federation of Labour, with the objective: *“To implement Programme 17/TU and Directive 13 of the Ho Chi Minh City Party Committee on training, retraining, fostering, and enhancing professional levels and skills for the city’s functional labor force; developing human resources for the needs of industrialization and modernization; contributing to the training of talents and human resources; developing research activities to serve production systems and society in Ho Chi Minh City and the southern provinces.”*

In order to expand its scale, strengthen financial management, increase competitiveness, and meet the growing demand for higher education from society and the labor market, the Prime Minister issued Decision No. 18/2003/QĐ-TTg dated on January 28, 2003 to transform TDTU’s legal entities and change its name to become Ton Duc Thang Semi-Public University directly under the Ho Chi Minh City People’s Committee. On June 11, 2008, the Prime Minister issued Decision No. 747/QĐ-TTg changing Ton Duc Thang Semi-public University into Ton Duc Thang University governed by the Vietnam General Confederation of Labour.

During the period 2012-2013, in the context of implementing Resolution 29-NQ/TW of the Central Committee *“on the fundamental and comprehensive renovation of education and training, meeting the requirements of industrialization and modernization in the socialist-oriented market economy and international integration”*, TDTU identified its strategic orientation to become a research university. The University developed and promulgated a corresponding development plan, promoted university autonomy, improved the quality of training and scientific research, gradually integrated internationally, and contributed to the goal of enhancing the quality of higher education in Vietnam. To fully exercise the University’s autonomy, on January 29, 2015, the Prime Minister approved the pilot scheme to renovate the operational mechanism of Ton Duc Thang University issued under Decision No. 158/QĐ-TTg. The goal of Ton Duc Thang University is determined that: *“Ton Duc Thang University actively mobilizes, and uses the resources of the University and society reasonably and efficiently (without using state budget capital) to develop Ton Duc Thang University into a quality research-oriented university in the region and the world, as well as, to ensure that participants from the policy beneficiaries and poor households have opportunities to access the higher education programmes”*.

During the period 2019-2024, TDTU continuously innovated and developed strongly in education, scientific research, and innovation. With the companionship of the University’s leadership, lecturers, staff, and students, the University has gradually

affirmed its position, improved the quality of training and university governance towards modernity, autonomy, and integration. In the academic year 2023-2024, the University conducted a review of its third five-year development plan and formulated and promulgated its **fourth five-year development plan (2025-2030)**. To concentrate resources for implementing the development strategy, TDTU has comprehensively updated its **Educational Philosophy, Mission, Vision, Goal, Slogan, Core Values, and Code of Conduct**, specifically:

- **Educational Philosophy:** “Liberal Education for Comprehensive Human Development”;
- **Mission:** “Education, Research, and Creativity for the Comprehensive Development of Humans and Society”;
- **Vision:** “Becoming an outstanding institution in education and research, aiming to meet societal needs, and fostering human development”;
- **Goal:** “Developing into a world-class research University”;
- **Slogan:** “Inspiring knowledge, shaping the future”;
- **Core Values:** “Quality and Trust”;
- **Code of Conduct:** “Democracy, Fairness, Effectiveness, and Devotion”.

- Regulations on administrative, human resources and financial management:

To ensure stability, effectively implement its missions and functions, and achieve development goals in line with the strategic orientation, the University has developed and promulgated Quality Objectives and Academic Year Plans at both the university and unit levels; organized Annual Work Briefing Conference to disseminate and assign key missions of the academic year to units, focusing on stabilizing the organizational structure and establishing a legal framework; and given attention to recruitment, training, admissions, student affairs, accreditation, testing, scientific research, digitalization, international cooperation, and other activities aligned with the implementation of the University's development plan and Quality Objectives. In 2024, the University reviewed, updated, and promulgated regulations on personnel, training, scientific research, and governance activities, including: Regulations on recruitment, utilization, and management of staff and employees of Ton Duc Thang University; Regulations on probation, trial period, appointment, transfer, and promotion of professional titles for staff and employees of Ton Duc Thang University; Regulations on scientific research activities and academic integrity; updated and supplemented internal expenditure and income regulations of the University; Regulations on standards and management of Strong Research Groups; Provisional regulations on criteria and conditions for research cooperation contracts; regulations related to training activities and lecturer management. These regulations are publicly disclosed on the University's official documents portal.

- Policies for attracting and developing lecturers, administrators, and staff:

Based on the University's job position scheme and human resource development plan, the University has developed recruitment plans and policies to attract highly qualified personnel. In 2024, TDTU continued to consolidate leadership and

management positions at the Head/Deputy Head level of units and professional managerial staff (Head/Deputy Head of Division; Head/Deputy Head of Sub-Division) in several affiliated/subordinate units of the University. The University also continued to implement the plan to review and supplement the planning of managerial staff for the 2021-2026 term and to prepare the planning of managerial staff for the 2026-2031 term, in order to ensure leadership and management resources for both the current and upcoming terms.

- **Recruitment plans and announcements of the University:** publicly available on the recruitment website (<https://www.tdtu.edu.vn/tuyen-dung>)

- **Development strategy of the University:**

The mission and objectives of TDTU serve as the guiding framework for formulating and implementing plans at each stage within the 30-year development strategy (2007-2037). As of 2024, the University has completed three five-year development plans: the first (2008-2013), the second (2014-2019), and the third (2019-2024); and is now implementing the fourth plan (2025-2030).

TDTU bears the responsibility of fostering human development and serving the nation of Vietnam by educating high-quality human resources for Ho Chi Minh City and the entire country, with particular emphasis on training workers and laborers. It also conducts increasingly effective applied and scientific research to support the nation's long-term growth; commits to greater contributions toward a prosperous, stable, and sustainable Vietnam, and helps create a civilized, peaceful world.

The goal of TDTU is to become a research university, while simultaneously fulfilling its role in training, retraining, fostering, and enhancing professional qualifications and skills, to meet the demand for high-quality human resources in the process of industrialization and modernization of Vietnam. To achieve this goal, the quality policies of TDTU are:

1. Leadership and management: ensuring a streamlined, transparent and democratic management system;
2. Human resources: recruiting, training, maintaining and developing human resources with expertise, high scientific level, integrity, professionalism and responsibility;
3. Finance, facilities and information technology system: operating a sustainable and transparent financial model; investing and developing facilities to ensure modernity, completeness and specialization; accelerating digital transformation to develop smart services that promptly support the implementation of strategic goals at each developmental stage;
4. Training, scientific and technological activities: continuously innovating to meet the needs of stakeholders; developing specific in-depth research fields, effectively contributing to local, national and international development;
5. Connecting and serving the community: enhancing domestic and international communication about TDTU; continuously expanding cooperation relationships with

domestic and foreign partners and networks including enterprises, professional associations, universities, governmental and non-governmental organizations to enhance the position and prestige of the University.

- **The democracy regulations of the University:** Regulations on the implementation of democracy in the operations of Ton Duc Thang University (issued together with Resolution No. 12/NQ-HDTĐHTĐT dated April 29, 2022 of the University Council of Ton Duc Thang University).
